

**To His Excellency,  
The Secretary General of the United Nations,  
Antonio Guterres, Esq.**

**We**, the academics at the universities in the Republic of Yemen, would like to forward this urgent letter to Your Excellency in your capacity as **the Secretary General of the United Nations**- whose preamble to the UN Charter establishes:

**“We The People of the United Nations Determined**

- **To save succeeding generations from the scourge of war, which twice in our lifetime has brought untold sorrow to mankind, and**
- **To reaffirm faith in fundamental human rights, in the dignity and worth of the human person, in the equal rights of men and women and of nations large and small, and**
- **To establish conditions under which justice and respect for the obligations arising from treaties and other sources of international law can be maintained, and**
- **To promote social progress and better standards of life in larger freedom,**

**HAVE RESOLVED TO COMBINE OUR EFFORTS TO  
ACCOMPLISH THESE AIMS**

**Accordingly, our respective Governments, through representatives assembled in the city of San Francisco, who have exhibited their full powers found to be in good and due form, have agreed to the present charter of the United Nations and do hereby establish an international organization to be known as the United Nations.”** (end of quote)

Those (theoretical) high human values included in the UN Charter, and that the United Nations is the one who is in charge of supervising the implementation of such values, today there is no sign of being found, or it is rather said that they have never been found but in favor of the western regimes. The history asserts that the West colonizing powers have committed brutal acts and made tragedies in the eastern and southern parts of the Earth, and within the Arab nations specifically. Like the former secretaries-general of the United Nations who have done nothing in response

to such tragedies during the past decades, now Your Excellency, the esteemed current Secretary General of the United Nations, have done nothing in response to the brutalities committed by the Western Zionist-American powers against Palestinians in Gaza including their children, women and elderly people despite being protected by the norms of UN Charter and the provisions of the international law for their capacity as civilians, and, they should have been protected fundamentally by the United Nations.

The above mentioned is also true more essentially with connection to the norms of Western democracy which never differ from the human values in the UN Charter. The Western regimes have always promoted the democracy norms for decades and with various ways to convince Arab nations, or whatever other nations, that such norms meant for peace would lead those nations to the luxurious life of peace and security, given that they provide peaceful solutions for internal controversies for all nations. Not only this, but they also – as promoted by the Western regimes – provide peaceful solutions for international disputes. As such, through those norms the disputes are settled among countries amicably, away from the violent ways.

The truth is that many nations around the world –as well as most of the Arab nations – were deceived by the glamour of the western taglines on democracy. Thereafter they were decided to be taught in schools and universities or other educational institutions building on their ability to submit magical solutions for all problems while the actual fact proves that the western democracy is a big lie, and that the western regimes are the problem makers that create all kinds of problems for nations. America as the most outstanding western democracy model, and Israel as the most outstanding middle east democracy model, both have always lauded democracy norms, nevertheless these two models together with many other western regimes do commit the most brutal and barbarian crimes against humanity and they apply genocide in their criminal wars instead of applying the alleged democracy norms by America and the West.

The actual practice proves that there is no value for the human values of the UN Charter unless they are in service of the western regimes. Similarly, no value for western democracy norms unless they serve the interests of western regimes. But for us, all what we see nowadays is the most precipitous decline in humanity and the flagrant deterioration in morals of the western regimes, and the brutality that prevails and overcomes the jungle law.

We absolutely believe that the forged western democracy norms are exposed now, and that those regimes are now stripped, and that the human values of the UN have fallen down, and nothing is left for Your Excellency, Mr. Antonio Guterres, before leaving your post but to register a true position in the most honorable pages of history that is to proclaim that the UN Organization has fallen down in terms of the values and morals and that it is now a den for managing brutality against humanity by the United States of America.

Best regards  
**Sana'a**
